

Secure

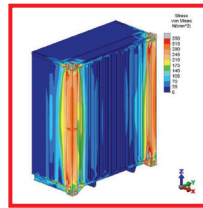

# Cordstrap CornerLash® AAR

Specifically designed for heavy loads in containers, CornerLash® is a breakthrough innovation in cargo securing. The most time and cost efficient solution on the market, CornerLash® enables heavy cargo (up to 30 tons) to be secured in an easy and consistent way.

Suitable for many types of heavy loads, from drums, big bags, IBC's, 25kg / 50 lb bags and other and other soft packaging – in both 20 ft and 40 ft containers – the CornerLash® solution ensures cargo is secured in the safest and most efficient way possible. 'Plug and Play' components – including load specific add-ons such as engineered protectors for IBC's and EdgeBoards specially designed for soft packaging – ensure enhanced safety and speed.

Complying fully with the latest rules and regulations, CornerLash® supports your responsibilities as a shipper, ensuring your cargo gets through port controls smoothly and arrives at its destination safely and in perfect condition.

Cordstrap CornerLash® protects your cargo, your people and your brand.

### Optimal Security

CornerLash® utilizes the strongest part of the container – the corner posts – to provide optimal security for heavy loads of up to 30 tons in transit, through the use of our innovative, patented corner element.

### Fast and Easy Application

Securing a container with CornerLash® takes only ten minutes. 'Plug and Play' components including cut-to-length lashing mean no excessive preparation or tidying up are required.

### Fully Certified

CornerLash® is AAR approved and carries Lloyds and MariTerm CTU Code compliance/certification and Eurosafe certification.

### Expert Support

CornerLash® is fully supported by training and implementation from local cargo securing experts, enabling standardization and consistency.
