

Cordstrap CornerLash®

Secure heavy and hazardous cargo loads

CornerLash® is the fully compliant cargo protection solution for heavy and hazardous loads. To provide optimal securing, this innovative solution uses a patented corner element, creating a new anchorpoint, applied to the strongest part of the container – the corner posts.

CornerLash® is designed to be quick and easy to apply consistently. It's delivered in packaging that contains everything you need to secure one container, minimising preparation time, so one person can secure a container in minutes helping to reduce load times and costs.

At Cordstrap, we are committed to supporting and driving safety in our industry. Complying fully with the latest rules and regulations, CornerLash® is CTU Code compliant and has independent witness verification, supporting your responsibilities when shipping nationally or internationally. We understand that each customer has specific requirements, and will work closely with you to understand your needs, advising you on the best solution for your cargo type, modality and route, ensuring your heavy or hazardous cargo gets through port controls smoothly and arrives at its destination safely and in perfect condition.

Cordstrap CornerLash® protects your cargo, your people and your brand

SAFE & SECURE

High quality lashing solutions secure cargo to prevent movement within the container, protecting both the cargo and ensuring the safety of everyone involved in the supply chain.

TIME & COST EFFICIENT

Designed to be easy and quick to apply consistently, saving time and cost during loading and application.

COMPLIANT

All Cordstrap lashing solutions are CTU Code compliant and have independent witness verification.

Cordstrap Container Solutions: CornerLash® Range

CornerLash® 105.4	2 pairs of Cordlash® 105 applied through spring loaded corner elements to form 4 horizontal lashings, and 4 buckles
CornerLash® AAR 200LE	2 pairs of Cordlash® 200LE applied through spring loaded corner elements to form 4 horizontal lashings, and 4 buckles

CornerLash® is CTU Code Compliant and certified by MariTerm AB, Eurosafe and DNV-GL witnessed. CornerLash® AAR 200LE is approved by AAR.

Your Cordstrap Cargo Securing Expert can advise you on the best solution for your specific requirements. Securing values vary based on cargo type, transport mode and friction factor. For full details of the solution performance, please refer to the commercial specification sheet and MariTerm Certificate.

Tailor the solution for your specific cargo type

Edge protection and hang straps keep lashing in an optimal position and protect packaging				Elastic woven lashing for flexible retaining
				
EdgeBoards (Soft Packaging)	FlexBoards (Drums and BigBags)	IBC Protector	HangStrap	Retainer Buckle (Compressible Bulk Loads)

Use the recommended tools to enable easy, fast and consistent application
