

Cordstrap QuickLash®

Secure light cargo loads

QuickLash® is the economical solution for light loads without compromising on quality, safety or security. Using existing upper and lower lashing points in the container, QuickLash® secures loads using vertical lashing with easy to apply snap hooks, and adjustable horizontal lashing secured with buckles.

Designed to be quick and easy, QuickLash® can be applied by one person, securing a container in minutes. With pre-assembled lashing, delivered in packaging that contains everything you need to secure one container, preparation time is minimal, helping to reduce load times and costs.

At Cordstrap, we are committed to supporting and driving safety in our industry. The QuickLash® solution provides CTU Code Compliant cargo protection, supporting your responsibilities when shipping nationally or internationally. We know that each customer has specific requirements, and will therefore work closely with you to understand your business needs, and your cargo variables – type, weight, transport mode, route, so that we can calculate and advise on the best securing solution for you.

Cordstrap QuickLash® protects your cargo, your people and your brand

SAFE & SECURE

High quality lashing solutions secure cargo to prevent movement within the container, protecting both the cargo and ensuring the safety of everyone involved in the supply chain.

TIME & COST EFFICIENT

Designed to be easy and quick to apply consistently, saving time and cost during loading and application.

COMPLIANT

All Cordstrap lashing solutions are CTU Code compliant and have independent witness verification.
