OFFER ENDS OCTOBER 31ST

Cordstrap Tooling Program

Our products and applications are made to the highest standard. However, daily usage leads to wear and tear and eventually breakage. To support our customers we introduced a tool repair program:

- All Tensioners can be sent to our tool repair department for repair. Labor charges will be free, you only charged for parts
- Locations can choose to do their own repairs. Cordstrap will supply all support information and your local Cordstrap rep. can support too.

Find out more from your local Cordstrap Representative.
